

Congressman Campbell and a member of his staff read over mail from constituents.

**You and your neighbors regularly write, email, or call my office about important issues. Below are my views on several of the top issues constituents contact me about.**

**Illegal immigration**

**Border security is national security**

We need to regain control of our borders – *immediately*. The flaws in our immigration policy are a serious national security risk. I am working to make sure the final version of the *Border Protection, Antiterrorism, and Illegal Immigration Control Act* is a strong enforcement bill that secures our borders and does not include amnesty.

**The War on Terrorism**

**Protecting the homeland and confronting terrorists**

We must continue to pursue the enemies of freedom abroad and support the troops who defend us every day. We also need to provide law enforcement with all of the appropriate tools and resources needed to ensure our safety.

**Energy Efficiency**

**Finding reliable and sustainable alternatives**

Dependence on foreign sources of oil threatens our economic and national security. We need to diversify our energy supply by seeking out new cutting edge technologies and producing more of our energy at home.

☐ Our current immigration laws are strong enough; we need to take steps to help undocumented workers become legal workers.

☐ Other

10) The following are a list of common proposals to address energy issues. Please mark all of the items you think are good ideas:

☐ Requiring automobile manufacturers to have higher standards for fuel efficiency  
☐ Other

11) Which of the following statements best represents your view of current trends concerning the federal budget?

- ☐ The federal government is growing too fast and taxes are too high. We need significant reforms to the budget process to curb spending.  
☐ The federal government is spending about the right amount of money, but some minor reforms to eliminate wasteful practices would be an improvement.  
☐ Most of the federal government's priorities are about right, but there are some areas that need more funding.  
☐ The federal government usually fails to meet the needs of its citizens and should increase spending to meet these needs, even if it means raising taxes.  
☐ Other

**C** 12) The best way to grow the economy and create jobs is to:

- ☐ Cut taxes to spur the economic growth through savings and investment.  
☐ Increase government spending to expand government programs, build infrastructure, and increase entitlement programs.  
☐ Other

☐ It is ok if one state wants to recognize same sex marriage, but other states should not be forced to recognize those marriages. I would support a constitutional amendment along these lines.  
☐ Same sex marriage should be allowed.  
☐ Other
